

MAINE WRECKED FROM EXTERIOR

Removal of Nearly All Water Confirms Original Opinion.

VESSEL LIES DEEP IN MUD

Small Quantity of Water Remaining Around the Wreck Can Be Removed in Short Order, but the Getting Out of the Mud Constitutes a Far More Difficult Problem for the Engineers. Latter Decline to Comment on What Sunk the Battleship.

Havana, July 19.—That the United States battleship Maine was sunk in Havana harbor as the result of an external explosion would seem to be definitely established as a result of the examinations which have followed the removal of practically all the water surrounding the wreck of the submerged ship.

The destruction of the bow as far aft as frame eighteen has been exposed, permitting an analysis of the plates, beams, ribs, etc., and it has been shown conclusively that they originally belonged to the structure of the double bottom which is now elevated to a height of about forty feet above the normal position, apparently giving confirmatory evidence of a tremendous exterior explosion.

To this view the engineers decline to commit themselves, merely admitting the identification of parts of the bottom of the ship.

In the confused mass of wreckage of the bow is to be seen a curved piece of steel, believed to be what Ensign Powelson identified before the Sampson court of inquiry as part of the flat keel of the Maine.

Naval Constructor Ferguson, in charge of the examination, declines to say whether he can fully confirm Powelson's identification, but says that adjacent plates and beams are unquestionably from the vicinity of the keel.

The process of removing the water surrounding the wreck is practically completed, leaving the wreck surrounded by islets of mud, small pools and sinkholes of green, slimy water. The soundings show nowhere a depth in excess of four feet.

The dregs of water remaining can be removed in a few hours, but it is now apparent that the engineers are confronted with an infinitely more serious problem, the removal of the mud in which the remains of the battleship are imbedded from a minimum of thirty-seven feet to a depth that can only be conjectured.

Bankers' Committee Head Says Audit May Be Completed in a Week.

Chicago, July 19.—Frank O. Wetmore, vice president of the First National bank and chairman of the joint investigating committee of Chicago and Minneapolis bankers, issued the following statement regarding the affairs of F. H. Peavey & Co.

"It is not true that F. H. Peavey & Co. will go into gradual liquidation and as for our plan of reorganization it may not be necessary. It is only a matter of time until the company will pay all its debts and be able to start over again without stain. The situation in the affairs of the company is unchanged. The audit of the concern's books is still in progress. Nothing further will be done until this audit has been completed, which may be a week."

HAD BOY FOR PRESIDENT

Head of Two and Secretary of One Insurance Concern.

Philadelphia, July 19.—At a hearing here of three officials of fourteen "mutual fire insurance companies" of this city on the charge of operating fraudulent concerns, a nineteen-year-old boy testified that he had been picked off the street and made president of two of the concerns and secretary of a third at a total salary of \$5 a week.

The witness, Herman S. Robinson, said he was homeless when hired to run errands. He was told he must "dress up," and said one of the defendants fitted him out.

After the hearing the three officials, David Belaitz, Jacob Malschick and Charles Winberg, were held under bail for trial.

COLLEGE MEN FOR POLICE

Wanted for Third Lieutenants in the Philippine Force.

Washington, July 19.—The war department is searching the country for suitable young college graduates to join the Philippine constabulary as third lieutenants. Only bachelors are eligible, but whether this is because the salary of \$1,200 a year is held to be insufficient to maintain a wife and family in the islands is not made clear.

There are a number of vacancies and appointment is not so difficult to procure as a commission in the regular army, as no educational examination is required, a recommendation from the candidate's alma mater being sufficient.

New York Health Officer Trying to Check Cholera.

REGARDS OUTLOOK BRIGHTER

Health Officer Doty's View of Cholera Situation.

New York, July 19.—The test tubes of the physicians at quarantine have saved New York from a possible invasion of Asiatic cholera by five carriers of the dread disease, in themselves well, but bearers of millions of bacteria. Their presence was made manifest as the result of the individual bacteriological examination instituted in the case of every person detained at Hoffman island—an extraordinary precaution.

Their discovery, together with the failure of additional cases of cholera to develop at quarantine, caused Health Officer Doty to regard the outlook as brighter than at any time within the last week.

The five cases revealed by the bacteriological examination were at once isolated from other immigrants and lodged in the Swinburne island hospital.

ASSERTS INTENTION OF PLEADING GUILTY

Minneapolis Crook Decides to Turn State's Evidence.

Minneapolis, July 19.—Fred A. Briggs and Arthur Denson are now in the Hennepin county jail on a charge of criminal conspiracy, a result of the pistol duel in Minneapolis Saturday night between the notorious yegg, Jerry McCarthy, alleged to be their confederate, and Patrolman Olinger of the Mill City force, which resulted fatally for both. Briggs awaits action of the grand jury on his application for \$10,000 bail, while Denson has announced his intention of pleading guilty and turning state's evidence, throwing himself on the mercy of the court.

Briggs' confession was made public in part. He admits aiding McCarthy after his escape, admits knowing he was in the city, but denies complicity. He declares he refrained from telling the police about McCarthy because he feared his own life and also that he sought to turn both McCarthy and Juhl, his pal, over to the police for the double reward when the time was ripe.

Denson gave a part of his confession in a statement to the press. In this he admits it was planned to work in St. Paul and Rochester and other towns.

HEALTH SIGNS IN THE CARS

Advice for Mothers as to Proper Care of Babies.

Chicago, July 19.—Street car advertising signs are being used by the civic federation in its campaign to instruct parents in the tenement house districts regarding the proper feeding of their babies in hot weather. Some of the advice given is:

"Give your baby mother's milk for nine months or pure milk from a clean bottle. Give your baby boiled water. Do not feed baby candy, meat, or tea or beer."

PLANS MODEL STAMP ISSUE

Utility, Art and Harmony to Characterize New Series.

Washington, July 19.—"Utility, art and harmony," according to Third Assistant Postmaster General Britt, will be combined in a new issue of postage stamps, about to be authorized.

The head of President Washington will appear on the first six of the series, while the last five will bear the likeness of Benjamin Franklin.

All of the new stamps' denominations will be in Arabic and this, as well as the use of a separate color or shade for each denomination, is expected to prevent confusion of which two conventions of postal clerks have complained.

ELECTRIC TRUST WILL DISSOLVE

Concern's Officers and Federal Attorneys Conferring.

VICTORY FOR THE GOVERNMENT

Eleven Electrical Pools, Which Were Alleged to Restrict Territory and Fix Prices of Electrical Equipment, Have Been Discontinued and All Trade Restrictions Removed—Matter May Be Adjusted Without Recourse to Court.

Washington, July 19.—Conferences now being held between officials of the department of justice and attorneys for the so called electrical trust may result in a complete anti-trust victory for the government without resort to the court.

Government officials have been told that eleven of the electrical pools, which were said to restrict territory and fix prices of electrical equipment, have been discontinued and that all trade restrictions have been removed.

A question of patents is involved, however, and the conferences probably will determine if the electrical men shall submit to the permanent injunction the government asks for or whether an agreed case shall be submitted to the courts for decision.

The government's case now awaiting trial is against the National Electric Lamp company. The General Electric company and the Westinghouse company are mentioned in the suit as owners of the stock of several of the subsidiary corporations. The method of dissolution and division of their stock is also one of the points at issue.

RECEIVES WILEY'S DEFENSE

President Unlikely to Dispose of Charge for Several Days.

Washington, July 19.—Dr. Harvey W. Wiley's answer to the charges made against him by the personnel board of the department of agriculture was presented to President Taft. Secretary of Agriculture Wilson received the papers from Dr. Wiley just before he left the department for the regular cabinet meeting. He had no time to read them before the cabinet session began.

The outline of Dr. Wiley's defense was not known by Mr. Wilson and was not disclosed at the White House.

Although Attorney General Wickersham is out of the city the case was discussed informally by members of the president's official family. No announcement as to when the president will dispose of the case was forthcoming, but it is not probable that he will be able to settle it for several days. Secretary Wilson took the papers back with him to his department after the cabinet session and promised to make his recommendation as soon as possible.

MAY REPRESENT PRESIDENT

Senator Stephenson's Partner Leaves on Mysterious Jaunt.

Milwaukee, July 19.—Considerable mystery surrounds the secret trip to Alaska being made by H. A. J. Upham, Senator Stephenson's business partner and political adviser. It is known that he will visit the Controller bay district, but neither he nor Mr. Stephenson have any interests in that vicinity.

Owing to Stephenson's close friendship to President Taft it is generally believed here that Mr. Upham is really representing the president, who, through a disinterested party, is seeking information which might be difficult to obtain otherwise. Mr. Upham took no one into his confidence. News of his destination leaked out by accident.

Doctor Dying From Glanders.

Des Moines, July 19.—The death of Dr. H. E. Talbot, until recently president of the State Veterinarian examining board and of the Iowa Veterinary Medical association, is expected hourly from an attack of glanders. He has been unconscious for three days.

LETTER WRITER SUMMONED

Committee to Hear Author of Alleged "Dick to Dick" Epistle.

Washington, July 19.—Richard S. Ryan, the promoter of the Controller Bay Railroad and Navigation company, who is alleged to have written the "Dick to Dick" letter which cannot be found, but which is declared by Miss M. F. Abbott, a writer, to have been in the interior department files, has been summoned to appear before the house committee which is investigating the Alaskan land controversy.

Ryan is now in New York, where he was served with a subpoena to appear in Washington next Thursday, though he will not testify until later. Chairman Graham said that Ryan would be held under the committee's discretionary authority until his testimony is desired.

Delegate Wickersham of Alaska will testify Thursday.

PUBLISHERS HELD FOR CONSPIRACY

Accused of Giving False Evidence in Postage Hearing.

Boston, July 19.—Bail in the sum of \$3,000 was given by James W. Cunningham of Springfield in the United States circuit court, accused on a charge of conspiracy, with Herbert Myrick, also of Springfield, to secure the admission of the publication known as the Orange Judd Northwest Farmstead to the privileges of second class postage by the presentation of false evidence.

Myrick, who is now abroad, is president of the Orange Judd company and is wealthy. Cunningham and Myrick were indicted by the grand jury, which convened especially to consider this case.

Witnesses were in attendance from the Northwest and considerable mystery surrounded the proceedings.

Postmaster General Hitchcock gave the prosecution of the two Springfield men his personal attention. The Orange Judd Northwest Farmstead has a large circulation in the Northwest and is published weekly.

WOMAN MURDERED IN AUTO

Husband Grapples With Assailant, Who Escapes.

Richmond, Va., July 19.—While returning to this city in a motor car from Chesterfield county Mrs. H. C. Beattie, Jr., was shot and instantly killed by an unidentified white man, who escaped.

Mrs. Beattie was twenty-three years old and was married a year ago. She was prominent in Richmond society.

The killing occurred five miles from Richmond. Officers with bloodhounds are searching for the slayer.

Mr. Beattie, driving the car, slowed down as he saw a man walk into the road. The man raised a shotgun and fired. The load blew off the top of Mrs. Beattie's head.

Beattie jumped from the car and grappled with the slayer, who gave him a smashing blow across the face with his gun, leaving an ugly scar. Beattie got possession of the weapon and the stranger disappeared.

DUMAS WARRANT PREMATURE

Lawyer Says It Was Served Before Offense Was Committed.

Duluth, July 19.—Judge M. A. Spooner of Bemidji, attorney for Dr. D. F. Dumas, major of Cass Lake who is charged with attempted arson, is here attending the bar association meeting and in the course of a conversation with a reporter pointed out one matter that he says has apparently been overlooked by the newspapers.

He asserted that the original warrant for the arrest of Dr. Dumas, which was served at Hibbing, charged him with committing an offense that was not committed until hours afterwards.

He says that the warrant was issued at 3 p. m. June 16, from a court commissioner's office in Bemidji and the offense actually was not committed until about ten hours afterward.

INTEREST SHOWN IN NEW STATES

New Policies of Arizona and New Mexico.

SENATE LISTENS TO DEBATE.

Initiative and Referendum and the Recall of Judicial Officers Makes Admission of Southwestern States Important—Senator Lorimer an Issue in Many Senatorial Contests.

By ARTHUR W. DUNN.

Washington, July 19.—[Special.]—Real interest has been shown by senators and members of the house in the bill for the admission of New Mexico and Arizona, not because two new states were to be added to the Union, but because new questions which are agitating the public mind are involved. The initiative and referendum, the recall of judicial officers and other progressive policies are discussed in connection with the statehood bill and attract more interest than debate on the tariff bill, no matter what measure may be under consideration.

On one of the hottest days in the year more than half of the senators sat in the heated chamber for nearly two hours and listened to Senator Sutherland, who was making a mighty good speech on the new policies of the progressives. It shows that the trend of thought is upon the subjects which have been agitated so earnestly during the past few years.

A Missouri Political Story.

It was a Democrat from Missouri who brought the story to Washington that Governor Hadley was a possibility on the tail of the Taft ticket. He reasoned it out that with Missouri Taft could be elected and that the energetic Missouri Republican governor as running mate with Taft could carry Missouri unless—

And here it was shown whom this Missouri Democrat wanted for president, unless the Democrats nominated Champ Clark, in which case the Missouri Republicans would abandon all hope of carrying Missouri.

Lorimer an Issue.

In every state where there is a senatorial contest the Lorimer case is dragged in as an issue, especially if the senator whose term is about to expire voted for Lorimer or took any action that would be construed as favorable to Lorimer is a candidate for election. Down in Virginia a fight is being made on Senator Martin because he introduced the resolution under which the committee is now investigating Lorimer as a substitute for La Follette. In other states Lorimer cuts more of a figure in the campaign than the tariff.

If They Only Knew.

If the newspapers only knew just how unpopular they are with the senators who oppose the reciprocity bill I don't know just what they would do, but they certainly would be surprised. There is nothing harsh enough to express the feelings of those senators who complain bitterly of misrepresentation, of unfairness and of general misbehavior on the part of the papers because they wanted the tariff removed from pulp and print paper. Both regulars and insurgents agree that they have been badly treated by the newspapers in the matter of publicity and also that their good motives have been impugned.

Will Be a Tariff Test.

An interesting feature of the Canadian reciprocity bill and its relation to the newspapers is that it will be one of the greatest tariff tests possible to make. The newspaper publishers have asserted that the removal of the duty on pulp and print paper will relieve them from the exactions of the trust and reduce the price of paper.

If it has that effect another effort made to prove that the tariff shelters trusts and keeps up prices will not be necessary. The newspapers will be convinced of that fact and will be in duty bound to support reductions on duties on trust made goods and on articles where the price is too high. No wonder the protectionists fear the effect of the Canadian agreement and insist that it will surely break down the tariff wall.

Treating All Alike.

There has been no discrimination in the heat wave, and no New England nor northwestern senator can go among his fellows and seek sympathy because he is not at home enjoying cool breezes. The senate weather map, showing temperatures all over the country, has been carefully scanned each day and shows that Sol is playing no favorites.

Not High Enough.

Congressman Tucker of Colorado does not like the Democratic wool schedule. He was interrupting a fellow Democrat's flow of thought in advocacy of the pending wool bill, and after awhile he was asked if the present duty was not too high.

"No," he replied. "I do not think wool is high enough. I never will think that as long as I am in the sheep growing business."

Honest Reply.

But it throws a flood of light on the tariff question. Beyond doubt there are many Colorado Democrats not in the sheep business who would support Bryan in his demand for free wool.

Attorneys Conferring.

VICTORY FOR THE GOVERNMENT

Eleven Electrical Pools, Which Were Alleged to Restrict Territory and Fix Prices of Electrical Equipment, Have Been Discontinued and All Trade Restrictions Removed—Matter May Be Adjusted Without Recourse to Court.

Washington, July 19.—Conferences now being held between officials of the department of justice and attorneys for the so-called electrical trust may result in a complete anti-trust victory for the government without resort to the court.

Government officials have been told that eleven of the electrical pools, which were said to restrict territory and fix prices of electrical equipment, have been discontinued and that all trade restrictions have been removed.

A question of patents is involved, however, and the conferences probably will determine if the electrical men shall submit to the permanent injunction the government asks for or whether an agreed case shall be submitted to the courts for decision.

The government's case now awaiting trial is against the National Electric Lamp company. The General Electric company and the Westinghouse company are mentioned in the suit as owners of the stock of several of the subsidiary corporations. The method of dissolution and division of their stock is also one of the points at issue.

RECEIVES WILEY'S DEFENSE

President Unlikely to Dispose of Charge for Several Days.

Washington, July 19.—Dr. Harvey W. Wiley's answer to the charges made against him by the personnel board of the department of agriculture was presented to President Taft. Secretary of Agriculture Wilson received the papers from Dr. Wiley just before he left the department for the regular cabinet meeting. He had no time to read them before the cabinet session began.

The outline of Dr. Wiley's defense was not known by Mr. Wilson and was not disclosed at the White House.

Although Attorney General Wickham is out of the city the case was discussed informally by members of the president's official family. No announcement as to when the president will dispose of the case was forthcoming, but it is not probable that he will be able to settle it for several days. Secretary Wilson took the papers back with him to his department after the cabinet session and promised to make his recommendation as soon as possible.

MAY REPRESENT PRESIDENT

Senator Stephenson's Partner Leaves on Mysterious Jaunt.

Milwaukee, July 19.—Considerable mystery surrounds the secret trip to Alaska being made by H. A. J. Upham, Senator Stephenson's business partner and political adviser. It is known that he will visit the Controller bay district, but neither he nor Mr. Stephenson have any interests in that vicinity.

Owing to Stephenson's close friendship to President Taft it is generally believed here that Mr. Upham is really representing the president, who, through a disinterested party, is seeking information which might be difficult to obtain otherwise. Mr. Upham took no one into his confidence. News of his destination leaked out by accident.

DOCTOR DYING FROM GLANDERS

Des Moines, July 19.—The death of Dr. H. E. Talbot, until recently president of the State Veterinarian examining board and of the Iowa Veterinary Medical association, is expected hourly from an attack of glanders. He has been unconscious for three days.

LETTER WRITER SUMMONED

Committee to Hear Author of Alleged "Dick to Dick" Epistle.

Washington, July 19.—Richard S. Ryan, the promoter of the Controller Bay Railroad and Navigation company, who is alleged to have written the "Dick to Dick" letter which cannot be found, but which is declared by Miss M. F. Abbott, a writer, to have been in the interior department files, has been summoned to appear before the house committee which is investigating the Alaskan land controversy.

Ryan is now in New York, where he was served with a subpoena to appear in Washington next Thursday, though he will not testify until later. Chairman Graham said that Ryan would be held under the committee's discretionary authority until his testimony is desired.

Delegate Wickersham of Alaska will testify Thursday.

PUBLISHERS HELD
FOR CONSPIRACY

Accused of Giving False Evidence in Postage Hearing.

Boston, July 19.—Bail in the sum of \$3,000 was given by James W. Cunningham of Springfield in the United States circuit court, accused on a charge of conspiracy, with Herbert Myrick, also of Springfield, to secure the admission of the publication known as the Orange Judd Northwest Farmer to the privileges of second class postage by the presentation of false evidence.

Myrick, who is now abroad, is president of the Orange Judd company and is wealthy. Cunningham and Myrick were indicted by the grand jury, which convened especially to consider this case.

Witnesses were in attendance from the Northwest and considerable mystery surrounded the proceedings. Postmaster General Hitchcock gave the prosecution of the two Springfield men his personal attention. The Orange Judd Northwest Farmer has a large circulation in the Northwest and is published weekly.

WOMAN MURDERED IN AUTO

Husband Grapples With Assailant, Who Escapes.

Richmond, Va., July 19.—While returning to this city in a motor car from Chesterfield county Mrs. H. C. Beattie, Jr., was shot and instantly killed by an unidentified white man, who escaped.

Mrs. Beattie was twenty-three years old and was married a year ago. She was prominent in Richmond society. The killing occurred five miles from Richmond. Officers with bloodhounds are searching for the slayer.

Mr. Beattie, driving the car, slowed down as he saw a man walk into the road. The man raised a shotgun and fired. The load blew off the top of Mrs. Beattie's head.

Beattie jumped from the car and grappled with the slayer, who gave him a smashing blow across the face with his gun, leaving an ugly scar. Beattie got possession of the weapon and the stranger disappeared.

DUMAS WARRANT PREMATURE

Lawyer Says It Was Served Before Offense Was Committed.

Duluth, July 19.—Judge M. A. Spooner of Bemidji, attorney for Dr. D. F. Dumas, major of Cass Lake who is charged with attempted arson, is here attending the bar association meeting and in the course of a conversation with a reporter pointed out one matter that he says has apparently been overlooked by the newspapers.

He asserted that the original warrant for the arrest of Dr. Dumas, which was served at Hibbing, charged him with committing an offense that was not committed until hours afterwards. He says that the warrant was issued at 3 p. m. June 16, from a court commissioner's office in Bemidji and the offense actually was not committed until about ten hours afterward.

SENATE LISTENS TO DEBATE

Initiative and Referendum and the Recall of Judicial Officers Makes Admission of Southwestern States Important—Senator Lorimer an Issue in Many Senatorial Contests.

By ARTHUR W. DUNN.

Washington, July 19.—[Special.]—Real interest has been shown by senators and members of the house in the bill for the admission of New Mexico and Arizona, not because two new states were to be added to the Union, but because new questions which are agitating the public mind are involved. The initiative and referendum, the recall of judicial officers and other progressive policies are discussed in connection with the statehood bill and attract more interest than debate on the tariff bill, no matter what measure may be under consideration.

On one of the hottest days in the year more than half of the senators sat in the heated chamber for nearly two hours and listened to Senator Sutherland, who was making a mighty good speech on the new policies of the progressives. It shows that the trend of thought is upon the subjects which have been agitated so earnestly during the past few years.

A MISSOURI POLITICAL STORY

It was a Democrat from Missouri who brought the story to Washington that Governor Hadley was a possibility on the tail of the Taft ticket. He reasoned it out that with Missouri Taft could be elected and that the energetic Missouri Republican governor as running mate with Taft could carry Missouri unless—

And here it was shown whom this Missouri Democrat wanted for president, unless the Democrats nominated Champ Clark, in which case the Missouri Republicans would abandon all hope of carrying Missouri.

LORIMER AN ISSUE

In every state where there is a senatorial contest the Lorimer case is dragged in as an issue, especially if the senator whose term is about to expire voted for Lorimer or took any action that would be construed as favorable to Lorimer as a candidate for election. Down in Virginia a fight is being made on Senator Martin because he introduced the resolution under which the committee is now investigating Lorimer as a substitute for a select committee as proposed by La Follette. In other states Lorimer cuts more of a figure in the campaign than the tariff.

IF THEY ONLY KNEW

If the newspapers only knew just how unpopular they are with the senators who oppose the reciprocity bill I don't know just what they would do, but they certainly would be surprised. There is nothing harsh enough to express the feelings of those senators who complain bitterly of misrepresentation, of unfairness and of general misbehavior on the part of the papers because they wanted the tariff removed from pulp and print paper. Both regulars and insurgents agree that they have been badly treated by the newspapers in the matter of publicity and also that their good motives have been impugned.

WILL BE A TARIFF TEST

An interesting feature of the Canadian reciprocity bill and its relation to the newspapers is that it will be one of the greatest tariff tests possible to make. The newspaper publishers have asserted that the removal of the duty on pulp and print paper will relieve them from the exactions of the trust and reduce the price of paper.

If it has that effect another effort made to prove that the tariff shelters trusts and keeps up prices will not be necessary. The newspapers will be convinced of that fact and will be in duty bound to support reductions on duties on trust made goods and on articles where the price is too high. No wonder the protectionists fear the effect of the Canadian agreement and insist that it will surely break down the tariff wall.

There has been no discrimination in the heat wave, and no New England nor northwestern senator can go among his fellows and seek sympathy because he is not at home enjoying cool breezes. The senate weather map, showing temperatures all over the country, has been carefully scanned each day and shows that Sol is playing no favorites.

NOT HIGH ENOUGH

Congressman Tucker of Colorado does not like the Democratic wool schedule. He was interrupting a fellow Democrat's flow of thought in advocacy of the pending wool bill, and after awhile he was asked if the present duty was not too high.

"No," he replied. "I do not think wool is high enough. I never will think that as long as I am in the sheep growing business."

Honest reply, but it throws a flood of light on the tariff question. Beyond doubt there are many Colorado Democrats not in the sheep business who would support Bryan in his demand for free wool.

Cooking Ham.

Ham is frequently too salt to fry without previous preparation. Put the slices in tepid water and let them stand on the back of the range to soak out the salt, not to boil, for about half an hour. Drain dry between towels, then fry in a hot spider.

When a whole ham is to be baked or boiled let it stand overnight covered with cold water.

John and Frederick Will Appear
in Lorimer Probe.

EVIDENCE WIDELY VARIES

More Contradictory Testimony Bembuddles the Investigation Far More Than at Any Time Since the Inquiry Began—Committee Determined to Leave No Stone Unturned to Ascertain the Entire Truth Regarding the Case.

Washington, July 19.—John and Frederick Weyerhaeuser were present on the trip from Duluth to Virginia which figures in the Lorimer case. Either one or both have been or will be summoned, as it is the purpose of the committee to leave no stone unturned to ascertain the truth about the Lorimer case.

More contradiction in testimony before the Lorimer committee bembuddles the investigation far more than at any time since the new inquiry began. All four witnesses flatly contradicted important testimony previously given to the committee.

Charles McGowan, a young Canadian contractor, declared that C. F. Wiehe, secretary of the Edward Hines Lumber company, did not remark on the Winnipeg flyer, on the way from Duluth to Virginia, Minn., in March, 1911, that there was a jackpot raised to elect Lorimer and that he subscribed \$10,000 to it. William H. Burgess testified that Wiehe did make this remark in the presence of himself and "a young Canadian," a description that fits McGowan.

B. A. Johnson of Chicago, until July 1, 1911, general staff representative of the American Lumberman, testified positively that Wiehe made no such statement.

Rigid Cross-Examination.

McGowan was subjected to a rigid cross-examination. He declared that all the men in the smoking car when Burgess said the Wiehe conversation took place were strangers to him at that time, but he remembered where each sat and the order in which they left the smoker.

Instead of Wiehe remaining in the smoker until all the party of eight or ten men left except Burgess and McGowan the witness said Wiehe was the first to leave.

Later McGowan declared to be correct an affidavit he had made a few weeks ago in which he said Wiehe was continuously in the presence of some of his party all the way from Duluth to Virginia, Minn. Attorney John H. Marble, for the committee, pointed out that the witness could not know with whom Wiehe was after he left the smoker.

"I must have misunderstood the affidavit," declared McGowan.

The witness declared stoutly that he heard everything that was said during the trip and he was sure nothing was said about Lorimer. The tariff and reciprocity were discussed, but he was unable to tell what any one said about either.

Johnson disagreed with Burgess about Wiehe remaining in the smoker after the witness had left it.

"Where did you sit?" inquired one of the attorneys.

"Oh, I sat in two or three seats," began the witness, but he was not able to finish the sentence. Johnson is a very large man and his remark caused an uproar of laughter.

"I meant at different times," explained Johnson, laughing.

TO OPEN MINNESOTA LANDS

Settlers Must Pay \$100 a Year for Out Over an Acre.

Washington, July 19.—Over 100,000 acres of land in Minnesota are to be opened to settlement under a new law which timber, but the law provides that 191,847 acres of land be opened to entry and 22,000 acres be reserved for the first assistant secretary of the interior.

Although open to homestead entry settlers will have to pay \$100 a year for the land, which is situated in the Cass Lake and Duluth districts.

Titus Manlius Torquatus fought a duel with a gigantic Gaul, Mettius Geminus, in the war of 391 B. C. and slew the latter. For violating this mandate the parent had his son beheaded.

Honest Medicines Versus Fakes

President Taft's recent message suggesting an amendment to the Pure Food and Drugs law in its relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are true medicines carefully compounded of ingredients whose medicinal qualities are recognized by the medical profession itself as the best known remedial agents for the diseases they are intended to counteract. For over three decades Foley's Honey and Tar Compound has been a standard remedy for coughs, colds and affections of the throat, chest and lungs for children and for grown persons, and it retains today its pre-eminence above all other preparations of its kind. Foley Kidney Pills are equally effective and meritorious. For sale by all druggists. mwf

KEEP THE KIDNEYS WELL

Health is Worth Saving and Some Brainerd People Know How to Save it

Many Brainerd people take their lives in their hands by neglecting the kidneys when they know these organs need help. Sick kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger when all diseases and aches and pains due to weak kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a citizen's recommendation.

Mrs. Benjamin Nelson, 701 Third Ave., Brainerd, Minn., says: "Our high opinion of Doan's Kidney Pills remains the same, as when we publicly endorsed this remedy in 1908. We have procured Doan's Kidney Pills from local druggists and they have never failed to give relief from lumbago and other annoyances caused by disordered kidneys. We urge a trial of Doan's Kidney Pills in all cases of kidney complaint."

There is not a mechanic, clerk, bookkeeper or laborer who does not

 saved and banked his money when a young man.

Honest Medicines Versus Fakes

President Taft's recent message
 suggesting an amendment to the Pure
 Food and Drugs law in its relation
 to Prepared Medicines, does not re-
 fer to such standard medicines as
 Foley's Honey and Tar Compound
 and Foley Kidney Pills, both of which
 are true medicines carefully com-
 pounded of ingredients whose medi-
 cal qualities are recognized by the
 medical profession itself as the best
 known remedial agents for the dis-
 eases they are intended to counter-
 act. For over three decades Foley's
 Honey and Tar Compound has been
 a standard remedy for coughs, colds
 and affections of the throat, chest
 and lungs for children and for
 grown persons, and it retains today
 its pre-eminence above all other pre-
 parations of its kind. Foley Kidney
 Pills are equally effective and meri-
 torious. For sale by all druggists.

KEEP THE KIDNEYS WELL

**Health is Worth Saving and Some
 Brainerd People Know How to
 Save it**

Many Brainerd people take their
 lives in their hands by neglecting the
 kidneys when they know these organs
 need help. Sick kidneys are respon-
 sible for a vast amount of suffering
 and ill health, but there is no need
 to suffer nor to remain in danger
 when all diseases and aches and
 pains due to weak kidneys can be
 quickly and permanently cured by
 the use of Doan's Kidney Pills. Here
 is a citizen's recommendation.

Mrs. Benjamin Nelson, 701 Third
 Ave., Brainerd, Minn., says: "Our
 high opinion of Doan's Kidney Pills
 remains the same, as when we pub-
 licly endorsed this remedy in 1905. We
 have procured Doan's Kidney Pills
 from local druggists and they have
 never failed to give relief from lum-
 bago and other annoyances caused
 by disordered kidneys. We urge a
 trial of Doan's Kidney Pills in all
 cases of kidney complaint."

For sale by all dealers. Price 50c.

STOPPED NIGHT SHIRT PARADE

Chief Ridley and Officer Barney Stop Convivial Celebration of Two Men and a Woman

ON SOUTH SIDE LAST NIGHT

Joe and Charles Harmon and Georgia Ball Plead Guilty to Being Drunk and Disorderly

Unable to endure the noise and drunken hilarity any longer, residents of the south side summoned the police last night and Chief Ridley and Officer Barney arrested Charles Harmon, Joe Harmon and Georgia Ball, who were carrying on a sort of bacchanalian orgie and disporting themselves about a house on South Third street in a very abbreviated state of deshabille.

The police promptly stopped the night shirt parade and took the celebrants into custody.

This morning they were arraigned on a charge of being drunk and disorderly and each in turn plead guilty and was given a \$10 fine and costs or 10 days in the city jail. None of the trio had any money and so they will spend a quiet period of repentance in the city's bastille or cooler.

The Ball woman is said to be a sister of the woman who recently shot her husband, E. G. Williams and the drinking bout may have been in honor of her release.

DIES IN WASHINGTON

Mrs. H. W. Adams, Formerly Miss Elma Woolman of Brainerd, Passes Away July 12

News has just been received in the city of the death of a former Brainerd girl, Miss Elma Woolman, daughter of former City Engineer Horace W. Woolman. Miss Woolman was married in this city two years ago to H. W. Adams, a civil engineer, and at the time of her death on July 12, was residing in Washuena, Washington.

The funeral was held there last week and their many friends here extend their heartfelt sympathy to the family in its deep distress.

Fight Against Pen Trust

A \$10 fountain pen for \$1. Incredible? Perhaps, but true. Impossible? Not at all. A good bicycle used to sell for \$150, now you can buy the same thing for \$18. It's a matter of methods, in making and selling. Under the "trust" plan of slow sales and enormous profits you pay from \$2.50 to \$10 for a decent fountain pen—there's a lot of cheap rubbish of course, that doesn't count. See Dunn's ad elsewhere in this issue.

STOPPED NIGHT SHIRT PARADE

Chief Ridley and Officer Barney Stop Convivial Celebration of Two Men and a Woman

ON SOUTH SIDE LAST NIGHT

Joe and Charles Harmon and Georgia Ball Plead Guilty to Being Drunk and Disorderly

Unable to endure the noise and drunken hilarity any longer, residents of the south side summoned the police last night and Chief Ridley and Officer Barney arrested Charles Harmon, Joe Harmon and Georgia Ball, who were carrying on a sort of mechanical orgie and disporting themselves about a house on South Third street in a very abbreviated state of deshabille.

The police promptly stopped the night shirt parade and took the celebrants into custody.

This morning they were arraigned on a charge of being drunk and disorderly and each in turn plead guilty and was given a \$10 fine and costs or 10 days in the city jail. None of the trio had any money and so they will spend a quiet period of repentance in the city's bastille or cooler.

The Ball woman is said to be a sister of the woman who recently shot her husband, E. G. Williams and the drinking bout may have been in honor of her release.

DIES IN WASHINGTON

Mrs. H. W. Adams, Formerly Miss Elma Woolman of Brainerd, Passes Away July 12

News has just been received in the city of the death of a former Brainerd girl, Miss Elma Woolman, daughter of former City Engineer Horace W. Woolman. Miss Woolman was married in this city two years ago to H. W. Adams, a civil engineer, and at the time of her death on July 12, was residing in Washington, D. C.

The funeral was held there last week and their many friends here extend their heartfelt sympathy to the family in this deep distress.

Fight Against Pen Trust

A \$10 fountain pen for \$1. Incredible? Perhaps, but true. Impossible? Not at all. A good bicycle used to sell for \$150, now you can buy the same thing for \$18. It's a matter of methods, in making and selling. Under the "trust" plan of slow sales and enormous profits you pay from \$2.50 to \$10 for a decent fountain pen—there's a lot of cheap rubbish of course, that doesn't count. See Dunn's ad elsewhere in this issue.
